

## **Senior Product Manager - Logistics SAAS Platform (f/m/d)**

### **Our Mission:**

Enter the exciting world of software-as-a-service solutions and become part of a very dynamic and award-winning company. tiramizoo GmbH has been the leading provider of innovative IT solutions for optimizing urban logistics since 2010. Market-leading, international companies are among our customers. Across industries, our solutions are used and are easily integrable into Enterprise Resource Planning (ERP) systems or transportation management systems (TMS).

We continue to grow. And not only at our previous locations, such as the headquarters in Munich or Austria, Switzerland, Poland, Malaysia and Singapore.

### **About the role**

We are looking for a **Senior Product Manager - Logistics (f/m/d)** to join our SaaS team and help us optimize delivery processes for our customers around the world.

Our **SaaS solution “Last Mile Master”** aims at gaining the highest logistical efficiency with every last mile delivery through a unique combination of digitally modelling delivery processes and automating them at high scale.

This is a central role and requires a **unique blend of business and technical acumen**; a big-picture vision, and the drive to make that vision a reality. You will work closely with important stakeholders in the company to understand the different regional markets and the issues they face. Working across all areas of the company, you will serve as an internal/external liaison between engineering, design, operations, commercial, marketing and executive management.

### **Your Objectives:**

- Create a compelling vision, mission, and develop a winning roadmap for your product that energizes and builds momentum within your team.
- Identify, conceptualise, and develop new features and products, as well as improvements to existing products.
- Develop, lead, and implement projects such as company-wide go-to-market plans. Ensure timely delivery of projects in collaboration with other departments and functions.
- Work collaboratively with business stakeholders, assisting and troubleshooting to ensure that products are competitive and marketable.
- Collaborate with the engineers and designers, and other colleagues sharing knowledge on product developments and issues, to discuss and implement effective solutions for the team.

### **Your Magic Skills:**

- Minimum of 4 years of prior experience working in a PM role

- Previous experience in conceptualizing solutions, engaging with business stakeholders.
- Knowledge of design thinking methodologies to create outstanding user experiences with the help of UX or product designers.
- BSc or MSc degree (or equivalent)
- Fluent in German and English

**Nice to have:**

- Working in the logistics industry
- Working with OKRs

Please send your application with your salary expectations and earliest possible availability to: [jobs@tiramizoo.com](mailto:jobs@tiramizoo.com)

We look forward to getting to know you!
